

Conflict Minerals Policy Statement

Creative Metal Products (CMP) supports the rules set forth by the US Securities and Exchange Commission (SEC) related to “Conflict Minerals” as directed by the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010. CMP is currently working to provide “due-diligence” to ensure our products are and remain Conflict Mineral Free.

Suppliers are also expected to establish policies and perform “due-diligence” activities to ensure that all components and materials supplied to CMP are DRC conflict-free and do not contain metals derived from “conflict minerals” which directly or indirectly benefit or finance armed groups through mining or trading in the Democratic Republic of the Congo or the adjoining countries. The “Conflict Minerals” are:

- Tantalum (Columbite-tantalite)
- Tin (Cassiterite)
- Tungsten (Wolframite)
- Gold

The attached template is the preferred method of reporting. CMP strongly urges the use of this form. Other written declarations containing supporting evidence of the minerals source (smelters/mines) may be accepted. **CMP will be asking for you to verify compliance annually. If deemed out of compliance, CMP will require corrective action.**

Please include your company’s contact person, name, telephone number and email address, on the document you submit. Our reporting to our SEC registrants is due by 12/31 so we will require your documentation as soon as possible. You can email it to Kari Mueller at kari@creativemp.com, mail or fax to the fax number below. Please contact Kari if you have any questions or concerns.
